Directions:

Arrival by train and/or tube is highly recommended as parking on site at Warwick Row is strictly limited and must be pre-booked by special arrangement.

The nearest underground station is Victoria, served by both the Victoria Line and the District & Circle Line. A short underpass connects the tube station to Victoria Mainline Station at the terminus of the Southern and Southeastern Railways.

Leaving the station by the Victoria Street entrance, cross Victoria Street and walk north along Allington Street, following round to the west and Warwick Row is on the right.

All visitors should report to the main reception.
