#### Directions:

Arrival by train or tube is highly recommended as parking on site at Audley House is strictly limited and must be booked by special arrangement.

The nearest underground station is Victoria, served by both the Victoria Line and the District & Circle Line. A short underpass connects the tube station to Victoria Mainline Station (terminus of the Southern and Southeastern Railways).

Leaving the station by the Victoria Street entrance, cross Victoria Street and walk north along Bressenden Place for approximately 175m before turning into Warwick Row and up the steps to Palace Place. Turn right again onto Palace Street, Audley House will be on your left after 50m. An alternative level route is possible via Cardinal Walk and Cathedral Walk.

All visitors should report to the main reception before being directed or escorted to MFD's office.
